

Tver Post and Telecommunications

Post Office

Central Post Office (Pochtamt) is located on Ulitsa Sovetskaya, 31. It offers a usual set of postal services, as well as fax, internet access, and international telephone calls at moderate prices. All major Postal Companies (FedEx, UPS, DHL) make direct deliveries to Tver.

Telephone

The international dialing code for placing a call to Russia is (7), and the area code for Tver is 0822. For example, if you are calling from the US, dial

011-7-0822-(phone number). To make an international call from within Russia, we recommend that you purchase a phone card and follow the instructions provided

(the rates are 20-25% the cost of dialing direct). You can purchase phone cards at Patterson, Video Mania (next to Fortuna Cafe), and a few selected kiosks.

Another option is to visit the main Post and Telephone office at Ulitsa Sovetskaya 31, where international phone calls may be made 24 hours per day, 7 days per week.

Keep in mind, however, that the phones there use pulse dialing, which may present a problem if you are trying to access voice mail, etc.

Internet

There are several internet cafes around the city center, some of which are 24 hours. We recommend Seliger Internet Cafe on Ulitsa Sovetskaya,

38, or Central Post Office on Ulitsa Sovetskaya, 31
